 jansoriano.dev

Profile

Front-End Developer with 5+ years of experience building reusable React and Next.js components for enterprise applications. Skilled in modular architecture, TypeScript, performance optimization, and REST API integration. Contributed to frontend modernization through Node.js upgrades and dependency updates while maintaining UI stability. Familiar with Azure DevOps CI/CD pipelines for build and release validation.

Core Skills

Web Platform & Runtime: Node.js, dependency management, runtime upgrades, package migrations

Frontend Architecture: React, Next.js, TypeScript, component systems

CI/CD & Delivery: Azure DevOps pipelines, GitHub, automated testing, release validation

APIs & Data: REST, Salesforce, Heroku, PostgreSQL, MongoDB

Cloud & Hosting: Azure, Vercel

Experience

Front-End Developer | Deloitte Consulting Philippines Delivery Center

Oct 2021-present

- Led Node.js runtime, dependency modernization (Node 12→22, 14→22) and library upgrades across frontend, CMS (Sitecore), and API connectors, ensuring secure, compatible, and regression-free production releases.
- Designed and developed reusable React and Next.js components and pages, applying modular architecture, dynamic routing, and performance best practices to deliver scalable, production-ready frontend features.
- Migrated legacy Enzyme test suites to Testing Library, modernizing test infrastructure to meet CI and production-readiness requirements.
- Integrated frontend applications with existing APIs, validating request/response contracts, troubleshooting data and authentication issues, and coordinating with backend teams to resolve integration defect.
- Maintained responsive and cross-browser compatible UI components while modernizing the web platform, ensuring functional parity and stable user experience across devices.
- Owned modernization of legacy web platforms to meet security, performance, and compliance requirements

Web Developer | Web Developer (Freelance – Contract)

Mar 2021 – Aug 2021

- Built and optimized Shopify e-commerce platforms for international clients, including theme customization, payment gateways, and third-party integrations.

Junior Web Developer (Shopify) | Great Deals E-commerce Corp

Aug 2020 – Oct 2021

- Customized Shopify storefronts and integrated inventory, warehouse, and payment systems.
- Improved storefront performance and conversion-focused UX through theme and app optimization.

Professional Interests

Web Platform Engineering, DevOps & CI/CD, Web Security, Web3, Cloud (Azure)

Education

Bachelor of Science in Information Technology 2010 – 2014
